UniFloat

This floater frame is a solid piece of acrylic that is custom made to each order. These picture frames are best suited for canvas pieces.

Max Framing Size

60" x 120" (outside dimensions)

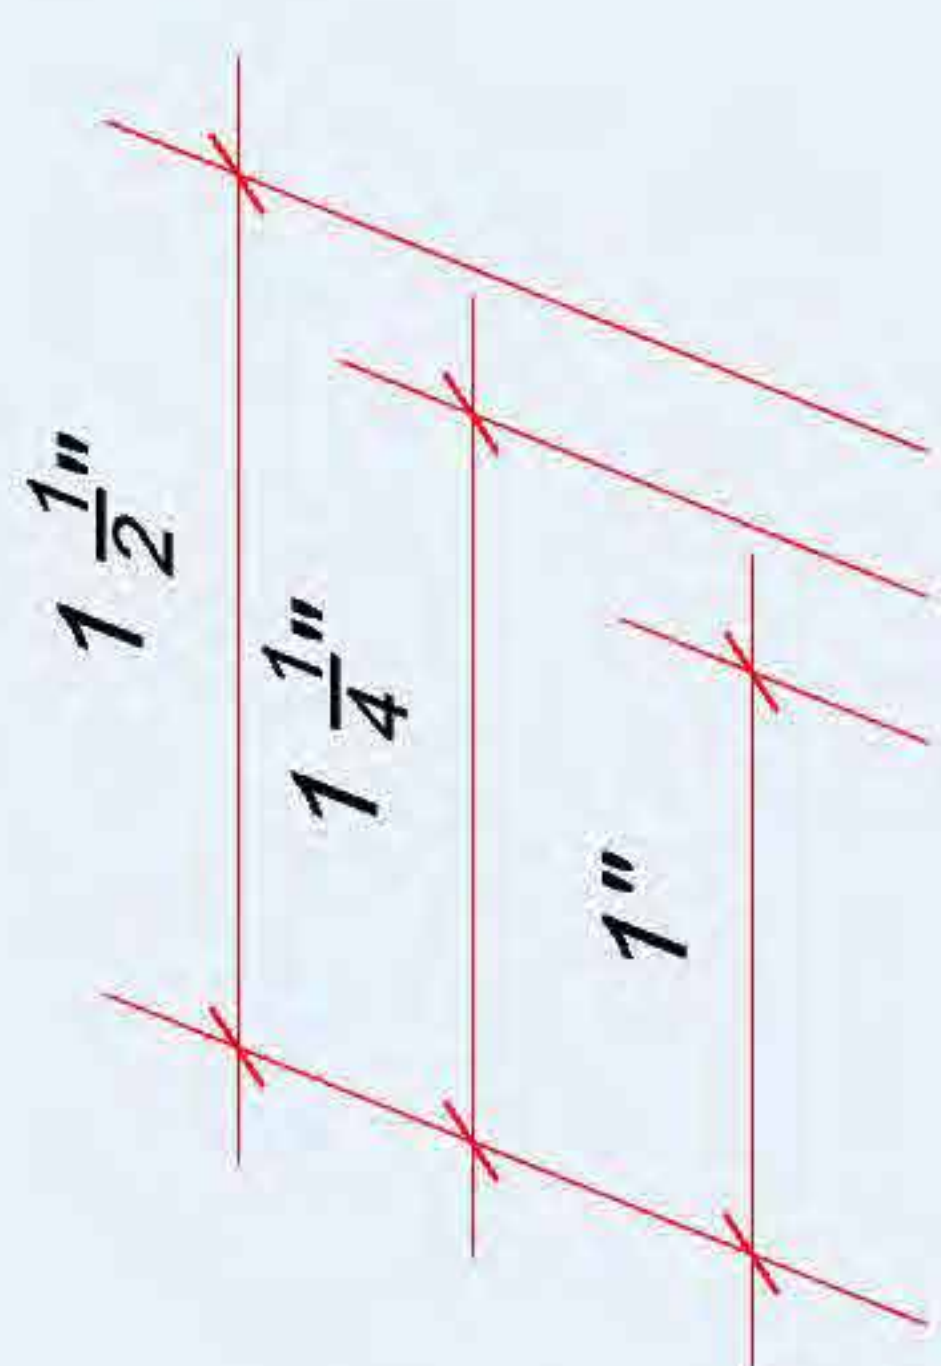

Platform Width

Standard 1 1/2" platform width for canvas

Custom platform widths are available upon request.

Platform Thickness

Depending on the size and weight of the overall picture frame, the thickness of the platform can range between **0.10"** to **0.20"**.

Acrylic Thickness & Useable Space

Your frame's useable space depends on the selected acrylic thickness.
(see diagram above for specifications)
